Advanced Sound and Audio
ACAD-200
Monday/Wednesday, 2:00pm - 3:50pm
Instructor: Brian Shepard

Do you need to incorporate sound and audio into your work? advanced Sound and Audio delves into the worlds of sound, acoustics, psychoacoustics, and audio equipment and is a perfect entrée for those wishing to work with sound in some manner.

The Hacker Imagination
From Ancient Greece to Cupertino
ACAD-302
Tuesday/Thursday, 12:00pm - 2:00pm
Instructor: Doug Thomas

The popular notion of the innovator is a story of the individual genius and the birth of new ideas. In reality, most new ideas result from reworking - hacking - older ideas. This course explores many of the world’s greatest ideas from the perspective of the imaginative mindset of hacking.

2017 FALL COURSES
These courses are open to ALL majors!
