FALL 2018
COURSES OF INTEREST
FOR NON-MAJORS

ACAD-245 Product Design I (4 units)
T/Th 12-2:50 pm
Introduction to the study of Product Design. Includes a wide investigation of methodologies and techniques specific to dimensional design as they apply to package, product and spatial design, in analog and digital environments. Students will investigate means of production and construction using both traditional analog and more advanced digital tools.
*Pre-requisite: ACAD-176 or DES-102 (or permission from instructor- contact aebradle@usc.edu if interested)

ACAD-302 The Hacker Imagination: From Greece to Cupertino (4 units)
M/W 10-11:50 am
The popular notion of the innovator and inventor is a story of the individual genius and the birth of new ideas. In reality, most new ideas result from reworking - hacking - older ideas. This course explores many of the world’s greatest ideas from the perspective of the imaginative mindset of hacking.

ACAD-356 Audio and Media Integration (4 units)
T/Th 9-10:50 am
Methods and techniques for integrating audio into various media and applications including: film and video, Internet streaming, mobile devices, and other digital and computer applications. The class delves into the worlds of sound, acoustics, psychoacoustics, and audio equipment and is the perfect entrée for those wishing to work with sound in some manner.
